ATTN: O.N. Ekaterinina
Director General
of SKB EP, LLC

Dear Olga Nikolaevna!

The branch of Rosseti Tomsk, PJSC has been using PKV/M7 circuit breaker analyzer manufactured by SKB EP, LLC since 2019.

With the help of this device, we carry out diagnostic of oil circuit breakers VMP(E)-10, VKE-10, VMT-110, MKP-110.

PKV/M7 device has proven itself on the positive side. The device is very convenient and easy to use, thus allowing to reduce the labor costs of repair personnel. The device measures important parameters with high accuracy (time difference, compression, speed, etc.).

We express our gratitude to SKB EP, LLC for the production of high-quality and reliable products and recommend their use to organizations engaged in the operation, diagnostics and repair of electrical equipment.

Head of Substation Service
